A LETTER FROM THE BOARD OF GOVERNORS

DEAR LINDY'S LAKERS:

We would like to welcome our new friends and neighbors to Lindy's Lake.

The Association has embarked on many renovations of its physical properties. The dam has undergone major renovation to insure proper run-off. The walkway has been extended and is now complete. There also has been electrical work done at the beach and at the Manor House. We have installed new secured mailboxes at both stations. Additional playground equipment has been installed. The farmhouse has been painted and the porch repaired.

All of this is the strong result of people working together for a common goal. That strength comes from pride. All the physical improvements, however, do not make an Association or a Community. The heart and soul is the people, their caring about their family, their home, and their Community.

We want to take this opportunity to thank each member for their support over the past years and for their continued support in a bright future. To those of you who are not members, we urge you to join the Association to make Lindy's Lake even better.

Let's start now to create a great history at Lindy's Lake for future generations.

Sincerely,

The Lindy's Lake
Board of Governors

Our Board will continue to meet at least once a month at the Manor House. Consult the Lindy's Lakeview for dates.

Association members are invited to attend meetings. However, unless presenting a question for Board action, the general membership are present only as observers.

SAVE TAX DOLLARS - RECYCLE!

THIS IS OUR LAKE . . . we have to protect our investment and all that it means to our way of life here at Lindy's.

Our lake can die if we allow it. Faulty or inadequate septic systems, coupled with the rocky nature of our terrain and poor soil percolation are the leading causes of pollution. Faulty septics also present a health hazard not to mention offensive odors.

There are a number of things you can do to keep your system in good working order.

These include:

1. Spread out clothes washing chores over the week rather than overloading the system with a week's wash done in one day.
2. Keep your system free of: hair, string, paper towels, cigarette butts, rags and other foreign matter.
3. Never empty cooking oil, fats or coffee grounds down the drain.
4. Never use colored toilet paper—most don't disintegrate.
5. Use your dishwasher wisely—use when full. Use powders with the lowest phosphate content.

Even though it appears to be working properly, have your septic system pumped out about every three to five years. The cost for this periodic cleansing is cheap insurance against major repairs which could run well over a thousand dollars.

In addition to maintaining a properly working septic system it is important that all residents are aware and take responsibility in following precautions to keep our lake and community healthy and attractive.

These are:

1. Don't fertilize before an expected heavy rain as the runoff will be carried to the lake.
2. Don't allow grass cuttings to go into the lake.
3. Don't litter in and around the lake.
4. Don't allow dogs to run loose—this is a township ordinance. The dogs strew garbage and residents don't enjoy cleaning up the animals' messes from their property.

Lindy's Lake is a unique community. We must all work together to keep it beautiful and healthy for swimming and recreation for many years of enjoyment.
