A LETTER FROM THE BOARD OF GOVERNORS

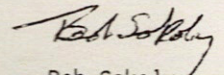

Dear Neighbors,

On behalf of the Board of Governors it is my privilege and pleasure to wish you another enjoyable season at Lindy's Lake. To you who are newcomers to our little community, please accept a most warm welcome from all of us, and may you reside here in good health and happiness.

The start of each year at the Lake is always special, but 1992 is of extra significance as it marks the 65th anniversary of the Lake's existence. In the beginning it was the Lindy's Lake Corporation with a single owner. Soon it will be two decades since the Corporation was purchased by the present Lindy's Lake Association and ownership has been shared by the numerous Association members.

The Board and its many committees constantly strive to provide members of all ages with four seasons of pleasurable activities. Avail yourself of them and, hopefully, take a hand in planning for and helping with future ones. Do remember that our Lake is our greatest asset, a most precious commodity that requires constant monitoring, so please treat it with loving care and enjoy it in safety.

Most sincerely,

Bob Sokoly
President

Our Board will continue to meet at least once a month at the Manor House.

Association members are invited to attend meetings. However, unless presenting a question for Board action, the general membership are present only as observers.

THIS IS OUR LAKE... we have to protect our investment and all that it means to our way of life here at Lindy's.

Our lake can die if we allow it. Faulty or inadequate septic systems, coupled with the rocky nature of our terrain and poor soil percolation are the leading causes of pollution. Faulty septic also present a health hazard not to mention offensive odors.

There are a number of things you can do to keep your system in good working order.

These include:

1. Spread out clothes washing chores over the week rather than overloading the system with a week's wash done in one day.
2. Keep your system free of: hair, string, paper towels, cigarette butts, rags and other foreign matter.
3. Never empty cooking oil, fats or coffee grounds down the drain.
4. Never use colored toilet paper—most don't disintegrate.
5. Use your dishwasher wisely—use when full. Use powders with the lowest phosphate content.

Even though it appears to be working properly, have your septic system pumped out about every three to five years. The cost for this periodic cleansing is cheap insurance against major repairs which could run well over a thousand dollars.

In addition to maintaining a properly working septic system it is important that all residents are aware and take responsibility in following precautions to keep our lake and community healthy and attractive.

These are:

1. Don't fertilize before an expected heavy rain as the runoff will be carried to the lake.
2. Don't allow grass cuttings to go into the lake.
3. Don't litter in and around the lake.
4. Don't allow dogs to run loose—this is a township ordinance. The dogs strew garbage and residents don't enjoy cleaning up the animals' messes from their property.

Lindy's Lake is a unique community. We must all work together to keep it beautiful and healthy for swimming and recreation for many years of enjoyment.

©1992 © and ™ Century 21 Real Estate Corporation. Equal Opportunity Employer
INDEPENDENTLY OWNED AND OPERATED

Before you pick a real estate agent to sell your home, take a look at who other homeowners picked as Number One.

In a 1991 independent survey,* homeowners nationwide were asked, "Now, thinking about real estate sales organizations, which one would you say can do the most to help someone like you sell a home?" The CENTURY 21® system came in heads and shoulders above the competition. In fact, it was preferred nearly 6 to 1 over the next closest real estate sales organization.
